DISCLAIMER:

We honor the wisdom God has given to doctors. We are not against medical professionals—We recognize and honor that God, in His wisdom, has gifted doctors, nurses, and medical professionals with the knowledge and skill to care for our bodies. Many times, the Lord works through them to bring relief, guidance, and healing. Medicine can treat, but only God truly heals. We believe that doctors are part of the process, but Jesus is the **Great Physician**. He still heals. He still makes whole. He still works miracles—**yesterday, today, and forever** (Hebrews 13:8). We encourage individuals to seek professional medical advice, treatment, and follow-up when needed. We believe that sometimes God heals supernaturally, and other times He uses the hands of physicians as part of the healing journey. Medicine and miracles are not enemies—they can work together by the grace of God. While we pray, believe, and stand in faith for divine healing, we also support wise, Spirit-led decisions in healthcare.

Please know that nothing shared on this platform is intended to replace professional medical diagnosis, treatment, or advice.

Remember: Jesus Christ is still healing, still making whole, and still performing miracles!

So, yes—see the doctor, follow wisdom, but don't forget who holds the final word. **Will you believe Him?** (Hebrews 13:8)
